DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on April 23, 2004 has been considered by the examiner.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest an exposure device using a GaN blue semiconductor laser as a light source, having a first limiting device, which limits a light beam which passes through, is provided between an active layer of the semiconductor laser and a coupling lens which is nearest to the active layer, and the first limiting device having a limiting direction being a direction orthogonal to the active layer of the semiconductor laser.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sato (JP 02001076370 A) is cited to show a system that limits the beam diameter in a direction orthogonal to the scanning direction, but is not used in an exposure device using a GaN blue semiconductor laser as a light source nor is the beam limiting device provided between an active layer and a coupling lens nearest to the active layer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott J. Sugarman whose telephone number is (571)272-2340. The examiner can normally be reached on Monday-Friday.
